# KAVALI HARSHAVARDHAN

**Data Analyst | Excel | Power BI | SQL | Python**

Hyderabad, Telangana, India | 8008273318 | kavaliharshavardhan98@gmail.com
LinkedIn: linkedin.com/in/kavali-harshavardhan-7ab93a28b | GitHub: github.com/harshakavali81-collab

## SUMMARY

Detail-oriented Data Analyst with hands-on experience in Excel, Power BI, SQL, and Python for data cleaning, visualization, and dashboard development. Skilled at transforming raw datasets into actionable business insights through interactive dashboards and statistical analysis. Eager to apply data-driven, Python-backed problem-solving to drive business decisions.

## SKILLS

Data Analysis & Visualization: Power BI, Tableau, Excel (Pivot Tables, VLOOKUP, Dashboards), Matplotlib, Seaborn
Programming & Querying: Python (Pandas, NumPy), SQL, MySQL
Core Analyst Skills: Data Cleaning, Exploratory Data Analysis, Statistical Analysis, Data Wrangling, KPI Reporting
Tools & Platforms: Visual Studio Code, Eclipse, Git, GitHub
Core Competencies: Analytical Thinking, Problem Solving, Business Communication, Attention to Detail

## PROJECTS

**Zomato Insights Dashboard | Power BI | 2025**

Power BI dashboard analyzing restaurant-level data across ratings, cuisines, and pricing.
Built DAX measures and interactive visuals (slicers, maps, KPI cards) enabling city and category drill-down analysis for business decisions.

**Multilingual Indian Language Knowledge Platform | Python, NLP, Machine Learning | 2025**

Knowledge-based platform that understands and responds to user queries across multiple Indian languages.
Applied Python NLP pipelines (language detection, tokenization) and ML models to classify queries and retrieve relevant information accurately.
Analyzed query patterns across languages using Python (Pandas) to improve classification accuracy.

**Document Q&A Bot | Python, RAG, Embeddings, Vector Search | 2025**

Document-based question-answering bot built using a Retrieval-Augmented Generation (RAG) approach.
Implemented ingestion, chunking, embedding generation, and vector-based retrieval in Python; structured the app into reusable modules on Git/GitHub.

**Women Safety Device | GPS, GSM, Embedded C, IoT | 2024**

GPS and GSM-based safety device for real-time location tracking and emergency alerts.
Built the device to send SOS alerts with live location to registered contacts and validated response reliability.

## INTERNSHIP

**Python Intern - Edugene Technologies (MSME Registered) | Feb-Aug 2025**

Applied Python fundamentals - data structures, loops, functions, and file handling - to hands-on exercises involving data handling and automation scripts.
Built a strong foundation in Python-based logic building and debugging, supporting later work in data cleaning and analysis.

## EDUCATION

CMR Institute of Technology, Hyderabad | B.Tech ECE | CGPA 7.02/10 | 2021-2025
Sri Sathya Sai Junior College, Anantapur | Intermediate, 87% | 2019-2021
AP Model School, Anantapur | SSC, 92% | 2019

## CERTIFICATIONS

Android Developer Virtual Internship - Google for Developers (AICTE EduSkills, NEAT) | Jul-Sep 2024
Data Engineering Virtual Internship - AWS Academy (AICTE EduSkills, NEAT) | Apr-Jun 2024
AI-ML Virtual Internship - Google for Developers (AICTE EduSkills, NEAT) | Jan-Mar 2024
Intelligent Automation Virtual Internship - SS&C Blue Prism (AICTE EduSkills, NEAT) | Sep-Nov 2023
Multi-Paradigm Programming with Modern C++ - Infosys Springboard (Infosys Limited) | Oct-Dec 2023
